Scratches, pleats, corrosions:
signs of time...

New brightness and opacity
are the strength of surfaces
untended in places near and
far from us...
it is enough to search them,
to find them
and to give them new splendour
again...

Les griffes, les plis, les corrosions:
les signes du temps...
Nouvelles éclates et opacités sont
la force des surfaces
quittées dans lieux proches et loin
de chez nous...
il suffit de les chercher, les trouver
et leur donner un nouveau
splendeur...

Die Kratzer, die Wellen, die Zeichen
der Korrosion
und die Spuren des Zeitablaufes...
Glanz und Mattheit sind die innere
Kraft der vergessenen Oberflächen,
die uns jeweils weit und nah liegen...
wenn man sie entdeckt, dann wird
ihr neuer Glanz wieder hergestellt.

Царапины, складки, коррозии: всё
это отпечатки времени...
Новые отблески и тени - это сила
поверхностей,
покинутых в местах близких и
отдалённых....но стоит поискать,
найти и придать им новое
великолепие

I graffi, le piegature, le corrosioni:

segni del tempo...

Lucentezze e opacità nuove sono

la forza delle superfici

abbandonate nei luoghi vicini e

lontani da noi...basta cercarle,

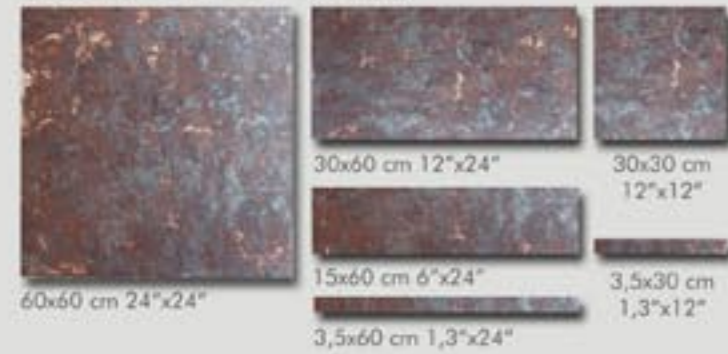

trovarle e ridare loro un nuovo

splendore....

IMPORTANTE :

IMPORTANT - WICHTIG - Важная информация

Si raccomanda per la pulizia dei prodotti di non usare sostanze allo stato puro (acido muriatico, candeggina, ecc.) che potrebbero intaccare la bellezza delle superfici, ma sostanze saponate diluite in acqua.

We highly recommend for the cleaning of these products, not to use substances in their pure state (acid, bleach, etc) which could affect their superficial beauty. Substances should be diluted in water

Wir bitten, keine aggressiven Chemikalien (wie z.B. Säurereiniger od. Bleiche) bei der Reinigung der Fliesen zu verwenden . Nur seifenhaltigen Reinigungsmittel , mit Wasser verdünnt , einsetzen .

Se recommande pour le nettoyage des produits de ne pas utiliser des substances pures (comme l'acide muriatique ou eau de Javel) qui pourraient entamer la beauté des surfaces, mais il faut utiliser des substances à base de savon diluées dans l'eau

Для ухода за этой серией не рекомендуется использование в чистом виде таких веществ как отбеливатель и соляная кислота, способных повредить поверхность изделий, допускается использование слабых мыльных растворов.
